

I am a listener of KLOVE Radio in San Diego CA. I Understand that the FCC is considering giving priority to LPFM over FM translators that could result in our area losing Klove Radio. KLove serves a great purpose in our area. If we lose their signal we will have no options to listen to Contemporary Christian programming in our area.

They serve the local area by informing us of local information relating to news, weather and Christian events in our area. The loss of this station would be a great loss to families in our area and others affected by a change of the current structure.

Please re-consider giving LPFM priority FM translators that would adversely affect our local community.

Thank-you for your time,

Larry R. Hertel
